Dear Sir;

Greetings from Foundation University!

I hope this letter finds you well.

We are happy to announce that we will be having our 15th Digital Expo on March 1-3, 2023 at Robinsons Dumaguete. Foundation University has earned the reputation as a creative and innovation hub where our students develop their skills and talents in order to be beneficial to the greater community.

The digital age has contributed to the advancement of the University's educational system and our students have become adept to its importance through the use of iPads and the Foundation University Expanded Learning or FUEL, the university online learning system.

In line with the said activity, we would like to invite our public and private high school students of Dumaguete City to join our activities on the said dates. We will be having webinars, in person competitions and fun activities for the students to learn and enjoy. We will be sending the event primer and details as well as the competition guidelines by next week.

Rest assured that the university will observe all health and safety protocols required throughout the duration of the event to ensure the safety of all the participants.

In anticipation for a favorable response on this matter, thank you very much.

Sincerely yours,

Alexie Miraflor
